REAL-LIFE INDUSTRIAL SCENARIO: THE URGENT QUALITY CALL

Monday Morning (8:15 AM): Martin Smith (Quality Director at Magna International Belleville Plant 4) calls Integrity Driven Solutions. A batch of Ford F-150 wiring harnesses arrived on Assembly Line #2 with loose micro-switch connector clips. If un-sorted, Ford will halt the assembly line (\$10,000/minute downtime penalty). Magna issues an urgent Purchase Order for **100 Hours Emergency Inspection** (\$85.00/hr billing rate). Operations Lead **Donna Cabral** onboards Magna into IDS Pulse, sets the 100-hr PO budget, and dispatches Quality Inspector **Clarence Kuiken** to the plant floor.

END-TO-END OPERATIONAL TESTING WORKFLOW

STEP 1: Onboard Emergency PO & Dispatch Inspector

ACTOR: DONNA CABRAL (OPERATIONS LEAD)

💡 **Business Rationale:** Upon receiving Martin Smith's call, Donna Cabral must onboard Magna, allocate the 100-hour PO budget cap, and assign Clarence Kuiken so that hours logged on the plant floor are capped against the client PO.

- Open browser and go to: <https://proud-lavoisier.vercel.app>
- Sign in as **Donna Cabral** (username: donna / password: password123).
- Left sidebar under **SETTINGS & ADMIN** → **Projects Registry**.
- Click cyan + **Onboard Project & PO** button at top right.
- Fill in **Magna International** dataset above. Select Assign Field Rep: **Clarence Kuiken**.
- Click bottom button **Register Project Assignment**.

✅ **Expected Result:** Toast notification "Successfully onboarded Magna International!" appears. Magna card shows 100 Hours Budget Cap.

STEP 2: Plant Inspection & Defect Containment Logging

ACTOR: CLARENCE KUIKEN (QUALITY INSPECTOR)

💡 **Business Rationale:** Clarence arrives at Magna Belleville Plant 4, performs 100% pin continuity check on 350 harnesses, isolates 12 defective harnesses, and logs an 8-hour shift report.

- Go to <https://proud-lavoisier.vercel.app> and sign in as **Clarence Kuiken** (username: clarence / password: password123).
- Select Project: Magna Belleville Plant 4 - Ford F-150 Harness Micro-Switch Inspection.
- Enter Details: Regular Hours: **8.0**, Parts Inspected: **350 Pcs**, Defects Found: **12 Pcs**.
- Summary: "Completed 100% micro-switch pin continuity check on F-150 harnesses. 12 harnesses flagged for loose connector clips."
- Click **Submit Daily Shift Report**.

✅ **Expected Result:** Shift report status shows "Sent / Pending Review". Live dashboard telemetry updates.

STEP 3: Supervisor Shift Review & PO Budget Deduction

ACTOR: DONNA CABRAL / GREG PHILLIPPE (OPERATIONS SUPERVISOR)

Business Rationale: Supervisor audits Clarence's shift report to confirm hours match plant attendance before locking the record and deducting 8 hours from Magna's 100-hour PO cap (92.0 hrs remaining).

- 1. Go to <https://proud-lavoisier.vercel.app> and sign in as **Donna Cabral** or **Greg Phillippe**.
- 2. Left sidebar under **QUALITY & OPERATIONS** \$ ightarrow\$ click **Shift Summaries Log**.
- 3. Locate Clarence Kuiken's shift entry for Magna Belleville Plant 4.
- 4. Review details (8.0 hrs, 350 Pcs, 12 Defects) and click **Approve Shift**.

✓ **Expected Result:** Shift status updates to "Published / Approved". Magna PO budget updates from 100.0 hrs to 92.0 hrs remaining.

STEP 4: Financial Accounting & Client Invoice PDF Export

ACTOR: COLLEEN BOYD (FINANCIAL CONTROLLER)

Business Rationale: Financial Controller consolidates approved billable hours (8.0 hrs @ \$85.00/hr = \$680.00 CAD) and exports official branded client invoice PDF.

- 1. Go to <https://proud-lavoisier.vercel.app> and sign in as **Colleen Boyd** (username: colleen / password: password123).
- 2. Left sidebar under **FINANCIAL & AUDIT** \$ ightarrow\$ click **Timesheets & Logging**.
- 3. Select **Magna International** from Client Filter dropdown.
- 4. Verify calculations: 8.0 hrs @ \$85.00/hr = **\$680.00 CAD Billing** | 8.0 hrs @ \$45.00/hr = **\$360.00 CAD Inspector Pay**.
- 5. Click green button  **Export Official Client Invoice PDF**.

✓ **Expected Result:** Downloads branded invoice PDF "Invoice_Magna_International.pdf" with itemized shift lines, tax calculation, and zero text overlap.
