

AUTOMOTIVE PULSE — Enterprise Quality & Containment Operating Platform

The all-in-one digital operating platform engineered for Tier-1 automotive suppliers and OEM assembly plants. Eliminate containment blind spots, protect assembly line continuity, and automate daily shift reporting across the United States and Canada. Powered by Integrity Driven Solutions Inc. (IDS).

INTEGRATED PLATFORM ARCHITECTURE

01. Mobile Quality Inspector Client

ANDROID / PWA

Field inspector mobile tool for rapid containment execution directly on the assembly floor.

- 1-Tap GPS Clock-In:** Live running shift timer and timestamp.
- Container Barcode Scanner:** High-speed camera QR/lot reading.
- Photo Canvas Defect Markup:** Draw arrows and callouts on part photos.
- Durable Offline Outbox:** Zero data loss in steel plant dead-zones.

02. HQ Web Operations Command

WEB HUB

Mission control for QA directors and operations managers overseeing multi-plant quality.

- Live Shift Telemetry:** Real-time piece count and defect streaming.
- Multi-Plant Master Matrix:** Rollup across all US & Canadian facilities.
- 1-Click QA Publishing Gate:** Review and release reports to clients.
- Automated Email Dispatch:** PDF/HTML daily digests sent to client SQEs.

03. Client Executive Portal

CLIENT VIEW

Isolated customer portal granting Tier-1 Quality Managers instant transparency.

- Certified Clean Lot Feed:** Real-time container lot release statuses.
- Defect PPM Pareto Charts:** Automated non-conformance trend analytics.
- Overtime Authorization Drawer:** 1-Click field overtime sign-off.
- Strict Data Isolation:** Zero exposure of internal margins or wage rates.

04. Financials & Rate Resolver

ACCOUNTING

Automated billing and pay rate engine enforcing strict contract compliance.

- Dynamic CAD / USD Resolver:** Automatic location currency rules.
- PO Budget Cap Warning Meters:** Alerts at 80% and 100% spend.
- Pixel-Perfect PDF Invoicing:** 1-Click commercial invoice creation.
- QuickBooks Integration:** Automated payroll and billing CSV export.

OPERATIONAL TRANSFORMATION & BUSINESS ROI

OPERATIONAL VECTOR	TRADITIONAL INDUSTRY BASELINE	AUTOMOTIVE PULSE ENTERPRISE PLATFORM
Shift Report Delivery	Manual paper/Excel; 24 to 48 hours latency	Sub-second real-time streaming + instant PDF
Plant Floor Connectivity	Data dropped in dead-zones; lost records	100% resilient IndexedDB offline queue
Defect Evidence Capture	Unsorted camera rolls & blurry email attachments	Structured base64 canvas markup + part metadata
Purchase Order Integrity	Frequent unbilled hours & budget overruns	Hard PO caps with automated threshold warning meters
Client Transparency	Disputed timesheets & phone tag for overtime	Dedicated Client Portal with 1-Click OT sign-off

● IATF 16949 / ISO 9001 Alignment

● WCAG AAA High-Contrast (>7:1)

● PostgreSQL Row-Level Security

● USD / CAD Multi-Currency Engine
